### The Average Boy.

We sat in a little company of men the other evening when the average boy was the topic.

We don't know whether the boys of this community average above or below those of other communities, but we do know that the average boy gets about as much attention as a glass of milk at a brewer's picnic.

None of us are impressed with the fact that the averaged boy in approaching manhood. If he lives there's nothing to stop him from growing into his maturity.

Whether he reaches his stature with a capability that will enable him to assume the responsibility of citizenship, or whether he just drifts in aimlessly, is the big factor in our community.

The boy has four critical periods that he must pass through before he stands up and exhibits the stuff that's in him.

Some one has divided his life into four, seven year periods. That brings the full manhood to twenty-eight years. You can't make a man out of a boy and stop off at twenty-one, no more than you can make a seasoned draft horse at a three-year-old.

From one to seven years any boy is pretty good. He is the constant companion of his mother in this first period and her influence is skin to the divine.

### Notice to Auto Owners.

The Acts of the Legislature 1919 and 1921 recites, that all persons must, before running Auto, Truck & Etc. on any road or street, obtain from the County Court Clerk 2 numbers plates to be placed on the front and rear of said auto, truck or motorcycle, and any person failing to do this shall be deemed guilty of a MISDEMEANOR. All this comes under the Inquisitorial power of the grand jury, which convenes the first Monday in March.

All County Court Clerks are required and have to make monthly reports, and as I do not desire to report any person for failing to obey these auto laws, but I am aware that a number of the people are not familiar with the auto laws, hence I give this notice. Please call and get your numbers, as it is my official duty to enforce these auto laws. February 8, 1922.

G. Lee McGlasson, Clerk.

### Mrs. Garland C. Jackson Has Narrow Escape.

Mrs. Garland C. Jackson was critical cut on the neck late Saturday evening, when a sharp piece of the broken glass in the windshield of the automobile in which they were riding, struck her.

The accident occurred while they were en route from Gainesboro to Mr. Jackson's brother in the 12th district. They had reached a very rough section of road near the residence of Bill Pippin, when the automobile struck a stump in the middle of road, causing the automobile to stop suddenly. Just as this time Mrs. Jackson, who was riding in the front seat with her husband, leaned forward to adjust the lights, and the sudden stop of the car threw her against the windshield, breaking it in such manner that a piece of sharp glass struck her neck below the right ear, severing an artery.

Mrs. Jackson was taken to the Pippin home and was soon rendered unconscious by the loose of blood. Dr. McCain was called and dressed the cut.

Mrs. Jackson was able to make the trip to Gainesboro Thursday. Her condition is improving and will fully recover in due time.

Mr. and Mrs. Jackson have been married only a short time and have the sympathy of many friends.
